Caring and Competant

by yayforran at Citysearch

★★★★★
09/09/09

i've had chronic eczema all my life, and it wasn't until I started seeing Dr Han that I began seeing results in my skin. I finally no longer need to use all my steroid creams and pills anymore!

Dr Han is one of the few doctors who I feel really cares about his patients. He takes the time to ask how not only you are doing, but also remembers details about your family, and seems genuinely concerned for their well being too.

I remember once I had a pain in my lower back. When I came in for my skin treatment, he noticed that my back was hurting, so he took the time to treat that as well.

He is always very professional and courteous, and is sensitive to all your issues, whether they be physical, or stress-related.

Pros: expert advice, great attention

Excellent Acupunture

by mellymelyoga at Citysearch

09/03/09

Dr Han and his staff came to our yoga studio on the Lower East Slde (Yoga High) to do an acupunture workshop. It was a big success. He and his wonderful staff were professional, warm and filled with knowledge. We loved having them here and we would recommend him to anyone. Dr. Han is so kind and lovely and made everyone feel great.

He and his staff were able to turn our yoga studio into a very comfortable make-shift acupunture room. It was wonderful.

Knowledgeable and experienced acupunturist

by dld1495 at Citysearch

Dr. Han is a very knowledgeable and experienced acupunturist. Unlike many other acupunturists, he really takes the time to listen to and evaluate a patient's symptoms and concerns and he speaks English! I have always been wary of practitioners of chinese medicine who have been educated abroad. However, those concerns were alleviated after learning that Dr. Han received his education and training in Oriental Medicine here in the United States.

Although acupunture is never entirely painless, I have found that sessions with Dr. Han have been much more pain free than those I have experienced with other practitioners. I have noticed that compared to many other acupunturists, Dr. Han takes a great deal of time and care when inserting needles and also tries to do so gently.

I also like that Dr. Han is a realistic practitioner. He does not offer an overnight cure, but lays out realistic expectations of treatment and results. I have also noticed that many other practitioners completely dismiss western medicine, but Dr. Han approaches acupunture and western medicine as complementary therapies - and is open and honest about when one may be more effective than the other.

I highly recommend Dr. Han's treatments to anyone seeking pain relief or improving their overall health. I especially recommend him to people who have tried acupunture before but were turned off by other practitioners. I was a skeptic before, but Dr. Han has won me over!

Two years ago, I had unbearable back pain caused by disc. I was not able to walk more than 3 consecutive steps at a time and could not sleep due to severe lower back pain.

I was scheduled for an operation, but my friend recommended that I see Dr. Han at EZ Acupunture. After receiving a couple of acupunture sessions from Dr. Han, I experienced an amazing and speedy relief from the pain. I was able to walk again like a normal, healthy person and was no longer awakened by pain at night. To this day, my back feels fine and pain-free.

I have recommended Dr. Han to a number of my friends who were suffering from chronic or short term pain issues. They also experienced excellent results from Dr. Han's acupunture treatments and herbal formula.

I would strongly recommend Dr. Han at EZ Acupunture to anyone who wants to experience pain relief in natural and safe way.
